Allowance

1. Claims 1-3,5-7,9-35-50,52-69 are allowed.
2. The following is an examiners statement of reasons for allowance:

The prior art references most closely resembling the Applicant's claimed invention are Srinivasan et al (U.S.6,357,042).

Srinivasan disclosed relates to a method and apparatus for multiplexing separately-authored metadata for insertion into a video data stream. Srinivasan disclosed a tracking module 13 adapted to determine the path of the pixel signature in the display. Sinivasan further discloses that a mouse click on an entity during playback of the video may invoke a link to network-based data-server that delivers that delivers data to the end user. Srinivasan fails to teach or suggest determining the content reference for a new session and initiating the connection of the browser to the new session before user selection of the selected hyperlink is made. These limitations are incorporated in all the independent claims (1,14,20, 29,34,43,69).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement for Reasons for Allowance"
